

Computer Engineering 174
Software Engineering
Fall 2002

Tuesdays and Thursdays
11:50 AM – 1:35 PM
ENGR 106

Instructor

Instructor: Darren Atkinson
Office: ENGR 245
Office hours: Tuesdays and Thursdays 2:00 PM – 3:00 PM, Tuesdays 4:00 PM – 5:00 PM
E-mail: atkinson@cse.scu.edu
Web page: <http://www.cse.scu.edu/~atkinson/teaching/174>

Teaching Assistants

Teaching assistant: Xiang Li
Lab hours: Mondays and Fridays, 2:15 – 5:00 PM
E-mail: ilexli@yahoo.com

Texts

S. L. Pfleeger, *Software Engineering: Theory and Practice*, 2nd edition.
F. P. Brooks, *The Mythical Man-Month*, anniversary edition.

Grading

There will be a team project, midterm, and final exam. Several discussion projects will also take place in class. The overall weighting is as follows:

Final:	40%
Project:	30%
Midterm:	20%
Discussion:	10%

Outline

We will be following a traditional approach to studying software engineering, with an emphasis on object-oriented concepts. We will be roughly covering Chapters 1–6, 8–9, and 11 from the main text, along with several chapters from the secondary text.
